

GUP

ROLLER SERIES

With over 12 million units sold globally, the GUP series is our most popular roller offering the best value for money in light and medium bulk materials handling.

We've been manufacturing GUP rollers since 1980, using a fully automated production line that guarantees GURTEC's German engineering quality in every roller, with the shortest lead times in the market.

TUNNELING

PROCESS
INDUSTRY

PREMIUM SEALING

Fitted with our in-house manufactured 3-piece labyrinth sealing system, the GUP series includes all GURTEC standard design features.

ASSURED QUALITY

The GUP production process is fully automated using the highest technical manufacturing standards to ensure quality in every roller.

WELDED END CAP

Robust, fully welded end caps are integrated into the GUP rollers, creating a dust and waterproof seal.

MAIN DATA

Tube Diameters	Ø63,5x1,75 / Ø88,9x2,9 / Ø108,0x3,25 mm
Tube Thickness	1,75 / 2,9 / 3,25 mm
Shaft Diameter	Only 20 mm
Bearing Type	6204
Standard Length	200 – 1150 mm
